1. ad notam® - HIDDEN TECHNOLOGIES

ad notam® is a celebrated inventor, pioneer, and leader in the LED Mirror TV industry. The product lines are the integration of the ad notam LED behind a glass or mirror surface. Starting with the stylish slick look of glass followed by the only LED monitor systems which are factory calibrated for integration behind glass, the result is sure to mesmerize your senses.

All ad notam® monitor systems are custom-engineered display technology. They are exclusively designed to overcome the unique challenges of operating in ventilation deprived environments and to allow easy and adjustable mounting. The elaborate unique mounting systems accompanying all ad notam® products are distinctively designed to suit all types of placements behind any glass surface.

2. PHILOSOPHY - OUR ASPIRATION

ad notam® combines conventional glass or mirror surfaces with a sophisticated monitor system, resulting in a fascinating and mesmerizing display for countless applications. The multimedia monitor systems are applied gapless behind the glass or mirror surface to dramatically display your content.

Whether entertaining, informative, or advertorial, ad notam® presents your communications on an engaging and cutting-edge platform. Use it to promote your customer dialogue, to entertain your guests, or simply to sit back and enjoy the luxurious atmosphere it creates.

ad notam® designed the product portfolio with your needs in mind. The products are extremely adaptable to all applications and any design objective. They elegantly blend into your décor with no visible cables or intrusive TV boxes. And best of all, when combined with Magic Mirror, the monitor system completely disappears when turned off.

MIRROR IMAGE® technology is patent protected.

and

3. APPLICATIONS - RESIDENTIAL

Living spaces are becoming smaller, making it essential for rooms to be designed with multipurpose and efficient use in mind. That is why the efficient use of intelligent room systems is becoming increasingly important. By merging the elements of interior design (glass and furniture walls) in one room with electronic and communication elements (AV media), space can be created for other living arrangements and new areas for other purposes. Whether it is an individually customized solution or a basic model of our Standard Solutions, each application is the epitome of innovative style and elegance. ad notam® products are an impressive and elegant way to install a multimedia unit in residential environments.
